FACTS ABOUT EURO FAIR STATISTICS

The 2008 edition contains the audited statistics of 2,195 trade fairs and exhibitions from the following 20 countries:

Austria	28
Croatia	23
Czech Republic	81
Denmark	5
Finland	97
France	615
Germany	291
Hungary	29
Italy	184
Moldova	1
Norway	2
Poland	222
Portugal	47
Romania	4
Russia	87
Serbia	1
Slovak Republic	36
Spain	341
Sweden	68
Ukraine	33

At these events a total of 655,964 exhibitors, 53.8 million visitors and 25.6 million square metres of rented space were registered.

42% of the fairs and exhibitions were addressed to trade visitors, 38% to private visitors and 20% to both target groups.

UFI estimates that the total net space annually rented in Europe is approximately 53.0 million square meters. The audited trade fairs present in this report therefore represent almost half (48%) of the European trade fair market.

INTRODUCTION

Trade fairs and exhibitions play a vital role in today's business world.

It is therefore of fundamental importance that customers have access to reliable exhibition data.

Auditing exhibition statistics provides the most consistent means of measuring return on investment.

This report includes the data provided by the 11 bodies mentioned on the right who guarantee that the events contained in this report have been audited according to the definitions outlined on the following pages.

Further information is available by contacting each auditing body directly (contact details are provided on page 7).

Michael von Zitzewitz
President of FKM, Germany

Boguslaw Zalewski
Chairman of the Board of Directors
CENTREX, Hungary

UFI MESSAGE

UFI, the Global Association of the Exhibition Industry, is now responsible for producing this report which was originally initiated by FKM (Germany). However, the data presented in this report remains the sole responsibility of each respective body.

UFI's goal is to develop this report in the future both in terms of geographical scope and contents (adding, for example, the industry sector and the name of the auditor). Due to the different levels of development and global diversity, methods may vary slightly from one country to another. UFI continues to play an important role in developing a basic minimum standard for the industry (including the publication and implementation of "UFI's Auditing Rules"). Auditing should be done in a consistent manner to make figures comparable, enabling exhibition organizers to manage exhibitor expectations in terms of attendees from one country to another and providing exhibitors and visitors with accurate information.

In addition, UFI has developed its own "UFI Approved Event" label for international events. This label can only be issued and maintained with a regular audit of the event.

If you have any questions or comments, please contact research@ufi.org.

Paris, February 2010

Vincent Gérard
UFI Managing Director

UFI is the association of the world's leading tradeshow organisers and exhibition centre operators, as well as the 45 major national and international exhibition associations, and selected partners of the exhibition industry. UFI's main goal is to represent, promote and support its members and the exhibition industry worldwide.

By promoting the unique characteristics of trade fairs, UFI:

- Provides an efficient networking platform where professionals of the exhibition industry can exchange ideas and experiences;
- Promotes trade fairs and exhibitions globally as a unique marketing and communications tool;
- Provides its members with valuable studies and research regarding all aspects of the exhibition industry;
- Offers educational opportunities and a variety of professional seminars; and
- Deals with issues of common interest to its members through regular meetings of its regional chapters and thematic working groups.

UFI represents 538 member organisations in 82 countries around the world. 843 of its members' exhibitions have earned the UFI Approved Event quality label.

DEFINITIONS

AFE – Spanish Trade Fair Association (Spain)

Space

The amount of exhibition space let is divided into hall areas and open-air areas, and is also differentiated between Spanish and foreign exhibitors. Special shows include stands, displays and demonstrations which deal with the general concept, or specific themes, of an exhibition but are independent of the exhibitors. Gross exhibition space comprises the net exhibition space and the related gangways and service areas.

Exhibitors

Direct exhibitors: Exhibitors occupying their own stands who receive bills from the exhibition organiser which are settled directly. Indirect exhibitors (or firms represented): Exhibitors which do not have own stands, but present products on direct-exhibitor stands. In the case of group or collective participation, the different exhibitors are considered direct where they occupy an area of at least 9 m². Exhibitors occupying a space of less than 9 m² are considered indirect.

Visitors

Identified visitors: At the entrance of the exhibition these visitors must show a card or numbered slip showing their identification. The number of these visitors is determined according to the number of completed cards or slips. Season tickets are counted once, irrespective of the number of times used. The number of visitors buying their tickets on entry to the exhibition corresponds to the number of tickets sold with proof of the corresponding receipt.

BDO bdc & Associates (Portugal)

Space

Obligatorily, the hall space must be distinguished from the open-air space, always using square meter (m²) as the unit of measure. Rented space should still be decomposed into national and foreign exhibitions. Surfaces granted free of charge and/or supporting activities – restaurants, conferences, shows, circulations and parking should not be considered in the statistics.

Exhibitors

Obligatorily, the exhibitors should be separated into direct and indirect exhibitors. These should also be subdivided between national and foreign. An exhibitor is considered direct if he occupies an area rented by himself for the display of his products or services.

If a representative presents his products in modules of a direct exhibitor, he is classified as an indirect exhibitor (represented firm).

In the particular case of the occupied area by the indirect exhibitor being of 9 m² at least, the latter will be considered as direct. The localization of the exhibitor's office determines his classification as national or foreign.

Visitors

A distinction between national and foreign visitors must be made. Foreign visitors should be identified through registration and control of their personal identification cards showing their address. Non-identified and non-controlled visitors admitted free of charge should not be considered in the statistics as well as, for example, those bearing press cards and, in general, all those bearing administration passes.

CENTREX (Czech Republic, Hungary, Poland, Romania, Slovak Republic & Ukraine)

Space

The rented space is divided up in hall space and open-air space which is rented and paid for by exhibitors. The total space data also includes the special demonstration area.

Exhibitors

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company receives the bill from the exhibition organiser and settles it directly. A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognized even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be very clear from the application form sent to the exhibition organizer.

Visitors

The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with paid passes for a given period are calculated on the basis of a financially reasonable minimum number of uses of the pass. 4 visitors are counted for each family ticket sold. For persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available.

The number of foreign visitors is established either by tickets sold at special counters for foreigners, filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

DEFINITIONS

DO (Denmark) FUTFO (Finland) SFC (Denmark, Norway & Sweden)

Space

The total rented space of an event refers to the area used by and paid for by the exhibitors. A distinction is made between hall space and open air space. Areas given free of charge to exhibitors are not counted.

Exhibitors

An exhibitor with his own stand (direct exhibitor) is one who has obtained a contract for an exhibition stand in its entirety, or who uses a specified, clearly delineated portion of an exhibition stand using his own personnel to promote goods or services. A represented firm (indirect exhibitor) is one whose products or services are offered through a direct exhibitor. The number of exhibitors with their own stands may not be added to the number of represented firms, except when evident.

Visitors

The number of visitors is the sum of paid entries, invitation cards used, and other used tickets which can have been obtained by conference visitors who have had access to the trade fair grounds. A visitor who visits a trade fair over a period of many days is counted once a day. Exhibitor, press, service and personnel cards and passes are not counted.

FKM (Germany, Serbia and some events in Italy & Russia)

Note: The specific events audited by FKM in Italy and Russia will be identified as "audited by FKM"

Space

The rented stand space is broken down according to hall space and outdoor exhibition space, as well as according to space rented by domestic or foreign exhibitors. Stands, display panels and demonstrations, which deal with the theme of an event comprehensively or specific aspects of it, independent of exhibitors, are treated as special shows. Net exhibition space consists of the rented stand space and space for special shows. Gross exhibition space consists of the net space plus the corresponding access and service areas.

Exhibitors

Companies or organizations, which offer goods or services via their own personnel from their own separate rented space, are counted as exhibitors. Additionally represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not include the figures for additionally represented firms.

Visitors

Beginning from 2001, the visitor figures are calculated according to the number of entries to the trade fair centre. The number of entries per day can, on the one hand, be determined by an electronic visitor admission system, whereby a maximum of one entry is registered per day. Organizers which do not use such a system, can calculate the number of visitors according to the number of day tickets sold and the minimum use of multiple-day tickets sold; it is assumed that such tickets are used at least as often as is economically worthwhile in comparison to the day ticket. Basis for establishing the number of visitors can also be a registration, irrespective of whether an entrance fee has to be paid or not. In such cases, the number of entries can be determined by a visitors-admission-system or – if an entrance fee has to be paid – by the minimal use of the tickets sold.

FKM-Austria (Austria & Croatia)

Space

The total rented space of an event is based on the amount of space rented by the individual exhibitors. The amount of rented space is divided into hall areas and open-air areas, and is also differentiated between domestic and foreign exhibitors.

Exhibitors

Exhibitor figures are compiled from the number of companies who have rented an individual stand and who use their own personnel to promote goods or services. Represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not be added to the number of represented firms.

Visitors

The number of visitors is based on the amount of entrance tickets sold or is based on an electronic registration system. One entrance per visitor per day is counted. Visitors buying a multiple entrance ticket can use the ticket on several days during the show (counting of entry is based on the ticket price – if the ticket costs 20 % more than the one day ticket, two visitors are counted). Complimentary tickets, exhibitor tickets, press tickets etc. have not been taken into consideration. Free entrance tickets are counted if based on an electronic registration system and the registration includes the full address of the visitor.

DEFINITIONS

ISF - Istituto di certificazione dati Statistici Fieristici (Italy)

Note: In Italy, the specific events audited by FKM will be identified as "audited by FKM"; the ones audited by ISF (Istituto di certificazione dati Statistici Fieristici) will be identified as "audited by ISF"; the data for all the others events are provided by the Conference of Italian Regions and Autonomous Provinces.

Space

The rented space of a fair is the area effectively occupied by the exhibitors, invoiced and paid at the official price.
The space is divided up in hall space and open-air space and in area rented by Italian and foreign exhibitors.
Areas given free of charge to private exhibitors are not counted.

Exhibitors

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the invoice and pays it.
Exhibitor figures are divided up in Italian and foreign exhibitors.
A represented firm (indirect exhibitor) does not have a stand of his own, but is present in the stand of a direct exhibitor. He cannot be considered, if he does not pay the official fee for the participation

Visitors

Any person entering a trade fair presenting a ticket or a card proving payment of the entrance fee, or an invitation card with a control slip is considered as a visitor.
Visitors admitted free of charge are counted only, if they give elements for their qualification and identification.
Foreign visitors are counted only, if their identification is possible.
Honorary cards, exhibitor, press and service cards and passes are not counted.
Permanent access cards are counted only once.

OJS (France)

Space

The given figures refer to area (booth space) occupied by exhibitors and co-exhibitors whether it is paid or unpaid.
It corresponds to the number of square meters effectively occupied.
It does not include in this case the area used for features in relation with the theme of the exhibition.

Exhibitors and co-exhibitors

The main exhibitor is the entity contracting directly with the organizer and presents its products/services with its own personnel.
Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand under his trade mark with its own personal.

Visitors

Any person entering the fair / trade show during its official opening hours who presents at control access either a ticket, or a card proving payment on the entrance fee or an invitation card with a numbered control slip is considered as visitor.
A journalist is counted as visitor. Visitors exclude the staff of exhibitors, exhibition centres, services providers and organizers' staff.
An additional visit, to be verified as made on a different day from the first visit is considered as a re-visit.
The visitor whose address is located in another European or third country is considered as foreign visitor.
The figures listed in the Euro Fair Statistics brochure concern the number of total visits: "visitors entries" is the total number of visitors admissions at the fair / trade show during its official opening hours.

RUEF - Russian Union of Exhibitions and Fairs (Russia & Moldova)

Space

The total rented space includes both hall space and open-air space rented by the exhibitors.
The rented space is divided into national and foreign in accordance with the exhibitor classification.

Exhibitors

The exhibitor figures include those companies who rented on any terms (paid or free of charge) an individual stand for the full period of an exhibition and who used their own or employed personnel to promote goods and services. Exhibitors are considered as being both main and co-exhibitors.
A represented company is one who does not have a stand of his own personnel but whose goods and services are demonstrated by an exhibitor.
The number of exhibitors may not be added to the number of represented firms.

Visitors

Visitor figures are determined by an electronic or a non-electronic visitor control, as well as by a number of paid entry tickets and individual invitations collected at the entrance.
Speakers and participants of complimentary events (seminars, conferences, congresses etc.) can be taken into consideration if they were registered at the entrance and visited the exhibition event.
Honorary cards, administration personnel, exhibitors and press cards are not counted.
